Model 1: IP CAM + PC CAM**Model 2: IP CAM + PC CAM + DIVX Movie Capture**

**Non Night Version
(for sufficient light)**

**Night Version
(for day and night)**

1. Introduction

The Grand IP Camera Pro is an IP surveillance camera that you can access over your home or office network, or use your browser to remotely view and monitor from anywhere in the world.

Grand IP Camera PRO can be used in a wired network environment. You can use your browser to remotely view and monitor your home or baby room from anywhere in the world via the internet or the local wireless network. Coupled with an embedded web server, Grand IP Camera PRO is much more than just a camera.
